

Hi

Greetings from i5 Summit 2026, IIM Indore!

With immense pleasure, we would like to inform you of the commencement of the **i5 Summit, 2026**. This year, the Summit will be held from **21st-23rd August** in an **OFFLINE** mode @ IIM Indore campus.

The theme for the Summit this year is "**Mastering Change: AI Innovation at Scale**". Through this theme, we seek to showcase how AI is transforming the way businesses innovate, compete, and scale. The summit will inspire entrepreneurs and leaders to embrace change, leverage AI-driven innovation, and develop the capabilities required to thrive in an ever-evolving global landscape.

With this email, we would like to **invite DB to participate in the i5 Summit**. We look forward to exploring the following areas of association:

1. Sponsorship:

We look forward to onboarding DB as the **Co-Sponsor** for the i5 Summit 2022. Alternatively, we can also explore if DB would like to sponsor a particular event. We can share the particulars/MOUs once we better understand the collaboration that you wish to have with us.

2. Workshops:

This year, we are conducting dedicated workshops for participants in **Case Solving** and **Product Management**. We look forward to associating **with DB as our** workshop partner for either or both of these tracks. We would be delighted to collaborate in delivering an engaging and insightful learning experience for our participants.

3. Participation in Startup Event: Mentorship and Jury Panel

One of our Legacy Events for the participating Startups is **Get-Funded**, where they get a chance to pitch their ideas to a panel of VCs and get access to funding opportunities. It would be a pleasure for the i5 Summit to **host 1-3 VCs on the panel of the Get Funded event**. **We also look forward to collaborating with DB for the "Start-up Accelerator Program", an exclusive event for select startups to get a one-on-one mentorship opportunity with industry experts. It will be a pleasure for us to host 1-3 Mentors from DB for the mentorship program for the startups.**

4. Participation in Speaker Series: i5 Summit would be honoured to **host a speaker** from the ranks of DB on this year's theme, "**Mastering Change: AI Innovation at Scale**". It would be invaluable for participants and startups to gain insights into *how organizations are harnessing AI to scale innovation, enhance decision-making, and build resilient, future-ready enterprises*. We would be delighted to feature DB's perspectives on these themes, along with other emerging trends shaping the future of business.

5. Other Events:

a. National Level Case Competition: i5 Summit will be conducting its inaugural case study event during the **1st week of August (tentative)**. We look forward to explore collaboration opportunities with DB for this case competition. We are planning to launch the case competition on a National level and expect over 600+ participating teams. We can finalize the details once we understand DB's pov for the same.

b. A Day at IIM Indore: It is an immersion program specifically designed for MBA aspirants in India, where they get the opportunity to experience life at one of India's premier B-schools – IIM Indore. Participants get a chance to interact with the current students, gaining insights into their journey in getting into the college and navigating the MBA life thereafter.

c. Socio-nnovate: A dynamic case competition where students tackle real-world social challenges through innovative, actionable business solutions. Participants collaborate in teams to create impactful, well-researched cases that balance social value with practical execution.

d. The Bottomline Quiz: A quizzing event that will challenge your wits on all aspects of the business world. Test your financial acumen, marketing savvy, and knowledge of current events in a comprehensive quiz that captures the multi-faceted nature of business.

e. Startup Expo: A vibrant platform for emerging businesses to connect with investors, industry experts, and the community. Featuring exhibitions, workshops, and live venture presentations, the expo offers startups the visibility to attract funding, receive feedback, and build valuable partnerships.

f. Speaker Sessions: In addition to the hands-on experience offered by a rich lineup of events, the summit provides an opportunity to vicariously learn from industry titans. Over three days, numerous panel discussions and speaker sessions featuring renowned personalities will be hosted, providing great insights into the business world.

g. Venture Quest: **The Venture Quest is a brand new event hosted by i5 Summit 2025.** It offers students the chance to step into the shoes of an entrepreneur and make real-world business decisions. This competition tests your ability to forecast demand, manage resources, and design winning strategies under uncertainty. The event combines analytics, creativity, and strategic thinking to simulate the challenges faced by startup founders. It's the ultimate test of both problem-solving and entrepreneurial acumen.

We are attaching our event brochure and a document outlining the various events to be held this year. We look forward to your response on the way to take this collaboration further. Please let us know if you feel we need to build upon any of the above mentioned points.

Thanks & Regards,

Debanshi Mishra | Param Yadav
